Chairman's Introduction

I am delighted to present this updated Jersey Sport Strategic Plan (SP) for the next three years, one year on from its creation. This plan is designed to provide the Board and the Jersey Sport Team with a framework that underpins and shapes the delivery of our charitable purpose and our company objectives. It also articulates how the organisation plans to deliver against the requirements of our Partnership Agreement with the Government of Jersey, and how the organisation delivers against the updated Ministerial Priorities of the Government of Jersey, our principal stakeholder and funder.

As a registered charity Jersey Sport is committed to delivering the charitable purposes: the advancement of health; and the advancement of public participation in sport.

The outcome of the Government of Jersey's review of sport in Jersey is eagerly anticipated in October 2023 and will likely be used to inform the future strategic direction for both sport in Jersey and potentially the role of Jersey Sport. Digesting recommendations of the report and working in partnership with the Government of Jersey and other key stakeholders to formulate associated plans and/ or implementation of recommendations will be a key focus of 2024.

Therefore, this strategy maintains focus through until 2026, and no additional year has been included as a rolling strategy. A light-touch review has been undertaken with an anticipated larger review due through 2024 pending the outcome of the review of sport.

A key focus of the organisation through 2024 is to fundraise, to deliver the outcomes of this strategy, and in support of the sport and active living sector.

This updated plan sets the introduction of the strategy implementation plan, providing a year-by-year breakdown of how Jersey Sport intends to achieve the outcomes through the lifespan of this strategy, linking together the strategic outcomes and annual business plans.

The visions, outcomes, and details in each of the four pillars have been reviewed and updated where necessary to ensure they remain fit for purpose. For example, the School Programmes vision now includes reference to influencing an education system, in place of schools.

Delivery of the implementation plans are dependent on levels of available resources and funding and will be updated on an annual basis to reflect this.

Jersey Sport Mission

Mission:

To inspire, lead, and enable positive wellbeing for all through lifelong engagement in sport and physical activity.

Our Values:

- We are passionate
- We are united
- We are inclusive
- We are courageous
- We are high performing

Our Strategic Purposes:

Jersey Sport's remit is focused on the delivery of four primary purpose statements. Everything we do, can be directly correlated to these:

- Increase participation in sport and physical activity.
- Reduce inequalities – focus on areas for women and girls, lower socio-economic communities, and those with one or more disabilities.
- Focus on inactive islanders, increasing physical activity levels to become “fairly active” (30 mins or more of physical activity per week).
- Build a safe, sustainable, and inclusive sporting community.

We will monitor impact as best we can with the resources available, against each purpose. However, to achieve them will require a high-level population wide shift in culture and behaviours, it must be made clear at the outset that influencing contextual and environmental factors will not be solely within our gift to control.

Our Charitable Purposes:

- The advancement of health.
- The advancements of public participation in sport.

Sport Development

Vision:

Jersey is a proud sporting nation where all islanders can play sport to the extent of their ability and desire.

Outcomes:

- 1 More sporting opportunities are provided, with a focus on engaging underrepresented groups in sport.
- 2 More robust and sustainable sports organisations in Jersey, offering high quality and safe experiences.

School Programmes

Vision:

Every child will have the foundations to live an active life supported by schools that place value on sport and physical activity for the whole school community.

Outcomes:

- 3 Active school cultures are embedded and continue to develop for the whole school community.
- 4 Children will have equitable access to high quality PE and a greater range of relevant sport, and physical activity opportunities both within the curriculum and extra-curricular provision.

Community Engagement

Vision:

All islanders will have the opportunity to access and engage with innovative community based sport and physical activity, embedding it in the culture of the Island as a societal norm to promote good health and wellbeing.

Outcome:

- 5 Increasing participation of the least active and underrepresented groups.

Jersey Sport Operations

Vision:

A sustainable organisation with the highest operational standards and governance, relative to our size and scale.

Outcomes:

- 6 Efficient and effective delivery of strategic outcomes, through the provision of appropriate resources, governance, insight, advocacy, and support services.
- 7 Highly qualified, effective, and diverse workforce supported by an environment that attracts and retains.

We deliver these 7 outcomes above through:

- Delivery of sport and physical activity opportunities as the social provider (schools, holiday camps, toddler play, referral, volunteer programmes)
- Grant funding consultation and support
- Provision of guidance, advice and resources
- Advocacy for sport and physical activity

The Government of Jersey commissioned Jersey Sport through a partnership agreement to deliver against these outcomes.
