

SPORTIN SCHOOLS Programme

Prospectus 2024

Purpose of the SPORTIN SCHOOLS Programme

The SPORTIN SCHOOLS Programme has evolved from the previously distributed Move More Schools Grant. The funding has been realigned to ensure a more positive outcome towards Jersey Sport's vision of 'Inspiring and Instilling Active School Cultures'. The new programme simultaneously allows for increased focus and support towards Sport Organisations to provide more local sporting opportunities, particularly by engaging underrepresented groups.

The new SPORTIN SCHOOLS Programme aims to:

- Increase funding into, and capacity within, local Sport Organisations.
- Respond to the needs and demands of sport by improving community sport links, pathways, and access to junior members for sustained and prolonged engagement with sport and physical activity.
- Establish greater equitable opportunity and access to external sport provision and specialised sports coaching for schools and their students by centrally coordinating and strategically aligning sport delivery in schools.
- Reduce the administration burden on schools and sports.
- Provide opportunities for coach development and mentoring for both teachers and sports workforce.
- Reduce inequalities in school-sport provision by coordinating delivery equitably, removing the cost barrier and supporting accessibility.

We are pleased to detail the eligibility, criteria and processes for the SPORTIN SCHOOLS Programme which have been formed through consultation with the Government of Jersey in response to the ongoing needs and demands from sports and schools.
